Custer County

Located in southeastern Montana, Custer County is Montana's 15th most populous with 11,697 residents, according to the 1990 Census.

Miles City, the county seat, is the state's 10th largest city with a population of 8,461. The city has been a major trade and services center for more than 100 years. Ranching and farming remain the foundation of the area's economy. Nicknamed the "Cowboy Capital of Montana," Miles City is host to the world famous Jaycee Bucking Horse Sale held annually in May.

According to the *Montana Almanac*, by authors Andrea Merrill and Judy Jacobson, the county was established in 1877 and named for Lt. Col. George A. Custer killed in the Battle of the Little Bighorn in 1876. The county was originally part of the old Big Horn County. The authors note Miles City takes its name from Civil War and Indian wars veteran Gen. Nelson A. Miles.

According to the U.S. Bureau of the Census, median income for Custer County households in 1989 was \$21,348. The county is 3,793.4 square miles in area; 3,783.3 square miles in land area and 10.1 in inland water area.

County residents experience the four distinct seasons. According to the *Montana Almanac*, the average daily low in January between 1980 and 1989 was 5.7 degrees above zero. The average daily high in July was 88.9 and average January snowfall 5.6 inches. The annual precipitation in 1995 was 12.90 inches and the length of the growing season 129 days.

PLEASE NOTE: Because of time and budget constraints, we are only able to update our county flyers periodically. Individual tables are updated on a more frequent basis. You can call us if you'd like the most current information for a particular county. The Annual Averages for County Employment By Industry are updated annually, usually in June. The Top Employers are updated annually. Per Capita Income statewide is usually released late spring and county data around August each year. Population data for Montana is usually released in March and county data may be released at a different time. The Annual Average Labor Force information is benchmarked annually and numbers available before March. The other tables contain Census information and will be updated every 10 years. You can also look for more current information on our website listed on the front of this publication.
